Monitoring

The policy will be reviewed a year after development and then every three years, or in the following circumstances:

- changes in legislation and/or government guidance
- as required by the Local Safeguarding Children Board, UK Sport and/or Home Country Sports Councils and Sport England
- as a result of any other significant change or event.

Principles

The guidance given in the policy and procedures is based on the following principles:

- All adults, regardless of age, ability or disability, gender, race, religion, ethnic origin, sexual orientation, marital or gender status have the right to be protected from abuse and poor practice and to participate in an enjoyable and safe environment.
- Kosmo Shotokan Karate Club will seek to ensure that our sport is inclusive and make reasonable adjustments for any ability, disability or impairment, we will also commit to continuous development, monitoring and review.
- The rights, dignity and worth of all adults will always be respected.
- We recognise that ability and disability can change over time, such that some adults may be additionally vulnerable to abuse, in particular those adults with care and support needs
- We all have a shared responsibility to ensure the safety and well-being of all adults and will act appropriately and report concerns whether these concerns arise within Kosmo Shotokan Karate Club for example inappropriate behaviour of a coach, or in the wider community.
- All allegations will be taken seriously and responded to quickly in line with Kosmo Shotokan Karate Club Safeguarding Adults Policy and Procedures.
- Kosmo Shotokan Karate Club recognises the role and responsibilities of the statutory agencies in safeguarding adults and is committed to complying with the procedures of the Local Safeguarding Adults Boards.

The six principles of adult safeguarding

The Care Act 2014 sets out the following principles that should underpin safeguarding of adults

- Empowerment - People being supported and encouraged to make their own decisions and informed consent.
 - “I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens.”
- Prevention – It is better to take action before harm occurs.
 - “I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help.”
- Proportionality – The least intrusive response appropriate to the risk presented.
 - “I am sure that the professionals will work in my interest, as I see them and they will only get involved as much as needed.”
- Protection – Support and representation for those in greatest need.
 - “I get help and support to report abuse and neglect. I get help so that I am able to take part in the safeguarding process to the extent to which I want.”
- Partnership – Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse
 - “I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together and with me to get the best result for me.”
- Accountability – Accountability and transparency in delivering safeguarding.
 - “I understand the role of everyone involved in my life and so do they.”

Making Safeguarding personal

'Making safeguarding personal' means that adult safeguarding should be person led and outcome focussed. It engages the person in a conversation about how best to respond to their safeguarding situation in a way that enhances involvement, choice and control. As well as improving quality of life, well-being and safety.

Wherever possible discuss safeguarding concerns with the adult to get their view of what they would like to happen and keep them involved in the safeguarding process, seeking their consent to share information outside of the organisation where necessary.

Wellbeing Principle

The concept of wellbeing is threaded throughout the Care Act and it is one that is relevant to adult safeguarding in sport and activity. Wellbeing is different for each of us however the Act sets out broad categories that contribute to our sense of wellbeing. By keeping these themes in mind, we can all ensure that adult participants can take part in Shotokan Karate fully.

- Personal dignity (including treatment of the individual with respect)
- Physical and mental health and emotional wellbeing
- Protection from abuse and neglect
- Control by the individual over their day-to-day life (including over care and support provided and the way they are provided)
- Participation in work, education, training or recreation
- Social and economic wellbeing
- Domestic, family and personal domains
- Suitability of the individual's living accommodation
- The individual's contribution to society.

Legislation

The practices and procedures within this policy are based on the principles contained within the UK legislation and Government Guidance and have been developed to complement the Safeguarding Adults Boards policy and procedures They take the following into consideration:

- The Care Act 2014
- The Protection of Freedoms Act 2012
- Domestic Violence, Crime and Victims (Amendment) Act 2012
- The Equality Act 2010
- The Safeguarding Vulnerable Groups Act 2006
- Mental Capacity Act 2005
- Sexual Offences Act 2003
- The Human Rights Act 1998
- The Data Protection Act 1998

Definitions

To assist working through and understanding this policy a number of key definitions need to be explained:

An Adult is anyone aged 18 or over.

An Adult at Risk is a person aged 18 or over who:

- Has needs for care and support (whether or not the local authority is meeting any of those needs);
- and is experiencing, or is at risk of, abuse or neglect;
- and as a result of those care and support needs is unable to protect themselves from either the risk of, or the experience of, abuse or neglect.

Adult in need of care and support is determined by a range of factors including personal characteristics, factors associated with their situation or environment and social factors.

Naturally, a person's disability or frailty does not mean that they will inevitably experience harm or abuse.

In the context of safeguarding adults, the likelihood of an adult in need of care and support experiencing harm or abuse should be determined by considering a range of social, environmental and clinical factors, not merely because they may be defined by one or more of the above descriptors.

In recent years there has been a marked shift away from using the term 'vulnerable' to describe adults potentially at risk from harm or abuse.

Abuse is a violation of an individual's human and civil rights by another person or persons. See section 4 for further explanations.

Adult safeguarding is protecting a person's right to live in safety, free from abuse and neglect.

Capacity refers to the ability to make a decision at a particular time, for example when under considerable stress. The starting assumption must always be that a person has the capacity to make a decision unless it can be established that they lack capacity (MCA 2005).

Types of Abuse and Neglect

There are different types and patterns of abuse and neglect and different circumstances in which they may take place. The Care Act 2014 identifies the following as a guide and is not intended to be exhaustive list as to the sort of behaviour which could give rise to a safeguarding concern.

Self-neglect – this covers a wide range of behaviour: neglecting to care for one's personal hygiene, health or surroundings and includes behaviour such as hoarding.

Modern Slavery – encompasses slavery, human trafficking, forced labour and domestic servitude. Traffickers and slave masters use whatever means they have at their disposal to coerce, deceive and force individuals into a life of abuse, servitude and inhumane treatment

Domestic Abuse and coercive control – including psychological, physical, sexual, financial and emotional abuse. It also includes so called 'honour' based violence. It can occur between any family members.

Discriminatory Abuse – discrimination is abuse which centres on a difference or perceived difference particularly with respect to race, gender or disability or any of the protected characteristics of the Equality Act.

Organisational Abuse – including neglect and poor care practice within an institution or specific setting such as a hospital or care home. This may range from one off incidents to on-going ill-treatment. It can be through neglect or poor professional practice as a result of the structure, policies, processes and practices within an organisation.

Physical Abuse – including hitting, slapping, pushing, kicking, misuse of medication, restraint or inappropriate sanctions.

Sexual Abuse – including rape, indecent exposure, sexual harassment, inappropriate looking or touching, sexual teasing or innuendo, sexual photography, subjection to pornography or witnessing sexual acts, indecent exposure and sexual assault or sexual acts to which the adult has not consented or was pressured into consenting.

Financial or Material Abuse – including theft, fraud, internet scamming, coercion in relation to an adult's financial affairs or arrangements, including in connection with wills, property, inheritance or financial transactions, or the misuse or misappropriation of property, possessions or benefits.

Neglect – including ignoring medical or physical care needs, failure to provide access to appropriate health social care or educational services, the withholding of the necessities of life, such as medication, adequate nutrition and heating.

Emotional or Psychological Abuse – this includes threats of harm or abandonment, deprivation of contact, humiliation, blaming, controlling, intimidation, coercion, harassment, verbal abuse, isolation or withdrawal from services or supportive networks.

Not included in the Care Act 2014 but also relevant:

Cyber Bullying – cyber bullying occurs when someone repeatedly makes fun of another person online or repeatedly picks on another person through emails or text messages, or uses online forums with the intention of harming, damaging, humiliating or isolating another person. It can be used to carry out many different types of bullying (such as racist bullying, homophobic bullying, or bullying related to special educational needs and disabilities) but instead of the perpetrator carrying out the bullying face-to-face, they use technology as a means to do it.

Forced Marriage – forced marriage is a term used to describe a marriage in which one or both of the parties are married without their consent or against their will. A forced marriage differs from an arranged marriage, in which both parties consent to the assistance of a third party in identifying a spouse. The Anti-social Behaviour, Crime and Policing Act 2014 make it a criminal offence to force someone to marry. The forced marriage of adults with learning disabilities occurs when the adult does not have the capacity to consent to the marriage.

Mate Crime – a ‘mate crime’ as defined by the Safety Net Project as ‘when vulnerable people are befriended by members of the community who go on to exploit and take advantage of them. It may not be an illegal act but still has a negative effect on the individual.’ Mate Crime is carried out by someone the adult knows and often happens in private. In recent years there have been a number of Serious Case Reviews relating to people with a learning disability who were murdered or seriously harmed by people who purported to be their friend.

Radicalisation – the aim of radicalisation is to attract people to their reasoning, inspire new recruits and embed their extreme views and persuade vulnerable individuals of the legitimacy of their cause. This may be direct through a relationship, or through social media.

Signs and indicators of abuse and neglect

Abuse can take place in any context and by all manner of perpetrator. Abuse may be inflicted by anyone in the club who an athlete comes into contact with. Or club members, workers, volunteers or coaches may suspect that an athlete is being abused or neglected outside of the club setting. There are many signs and indicators that may suggest someone is being abused or neglected, these include but are not limited to:

- Unexplained bruises or injuries – or lack of medical attention when an injury is present.
- Person has belongings or money going missing.
- Person is not attending / no longer enjoying their sessions. you may notice that a participant in a team has been missing from practice sessions and is not responding to reminders from team members or coaches.
- Someone losing or gaining weight / an unkempt appearance. this could be a player whose appearance becomes unkempt, does not wear suitable sports kit and deterioration in hygiene.
- A change in the behaviour or confidence of a person. For example, a participant may be looking quiet and withdrawn when their brother comes to collect them from sessions, in contrast to their personal assistant whom they greet with a smile.
- They may self-harm.
- They may have a fear of a particular group or individual.
- They may tell you / another person they are being abused – i.e. a disclosure.
- Harassing of a club member because they are or are perceived to have protected characteristics.
- Not meeting the needs of the participant. E.g. this could be training without a necessary break.
- A coach intentionally striking an athlete.
- This could be a fellow athlete who sends unwanted sexually explicit text messages to a learning disabled adult they are training alongside.
- This could be an athlete threatening another athlete with physical harm and persistently blaming them for poor performance.
